

25 and going strong

For more than 25 years, Exertis Hammer has been synonymous with value-add. Originally founded in 1991, Hammer became a subsidiary of Exertis in 2016, subsequently changing its name to Exertis Hammer in 2018. Our approach to storage, servers and end-to-end IT solutions sets us apart, and every element of our business is built upon this ethos.

We thrive on not just meeting, but exceeding the expectations of:

- Our vendors, in how we collaborate with them and develop new opportunities for them.
- Our partners, in the relationships we build, the expertise and diligence we present, and the business advantage we afford them.
- End-users, in the advice and business-enhancing systems our partners' provide, whether fully-bespoke, brand-led, cost-led or anywhere in between.

Storage, servers, networks

We are strongly committed to satisfying ever-changing business needs, driving innovation and customer growth, and facilitating unique ways of adding value. From our storage roots and customer-centric approach, we have grown into an eminent pan-European storage, server and networking value-add distributor.

Our coverage

With expertise across vertical markets and experience in over 50 countries, our 165 employees across seven European offices support niche players to large corporates with innovative technologies, advice and support.
